The Allday Time Manager Professional System

Powerful yet simple solutions for:

- **Time Attendance**
- **Absence Management**
- **Human Resources Records**
- **Access Control**

Time Attendance and Absence Management

The Allday Time Manager time and attendance system offers exceptional workforce management benefits. The system will deliver the workforce management information you need – *when you need it.*

Streamlining your time attendance needs with automated collection of information and export of accurate worked hours to payroll.

Allday Time Manager will enable you to manage absences effectively and minimise the impact that they cause.

We have satisfied customers worldwide.

Key Benefits and Features

- £ Reduce labour costs

- Minimise payroll errors with our payroll link

- Eliminate time theft or buddy punching with biometric technology

- Monitor compliance with agreements and legislation

- Real time reports and bespoke report builder

- Mobile and remote workers

- Flexible working

- Improve Absence management

- Super UK support team

- Fast set up

- Fire roll call

- Rotas made easy

- Hosted/Software As A Service (SAAS) option available

Human Resources

The Allday Time Manager includes a Human Resource database enabling you to store and easily retrieve essential personel information and documents for your employees including: personal records – payroll details – appraisals – qualifications/ training – company assets – disciplinary – health – accidents – pensions and benefits.

Combining your Human Resource and time attendance records into one system will mean all of your employee information is in one place – helping you to manage your staff easier, stay compliant with legislation and save you valuable time. With multi-level access you can rest assured that records are kept secure and confidential with access only given to those who need it.

Access Control

Allday Access Control is a straightforward and powerful solution for the security and protection of the modern workplace.

From simple, single-door access to the most complex all-encompassing control systems, Allday Access Control provides comprehensive and reliable solutions for the physical access control of your business.

Tailored solution to suit all types of access control.

The software can be tailored to provide solutions that work with your business with time-zoning, multi-tasking, and the provision of customised reports on the locations and movement of personnel.

Key Benefits and Features

- Increased security over pin entry systems
- Biometric readers available for maximum security
- High degree of customisation for access patterns
- Easy to use software and reports
- Link to fire alarm for door release
- Live fire roll call reports
- System scalable from single door to multi-level

Hardware – Terminals and Readers

We offer a full range of market leading terminals and readers, including the latest highly secure and accurate biometric technology as well as employee card or fob systems.

- *Full range of connectivity options including WAN/LAN, Wifi, USB and GPRS*
- *Battery back up in case of power failure*
- *Waterproof (lP65 option)*
- *Portable Rugged Option*

Our expert on-site engineers will ensure that your hardware is installed and maintained with no fuss.
